1. Draw a flowchart to add two numbers entered by user.

```
        ( Start )
            |
            v
       / Read n1 ,n2 /
            |
            v
     [ sum = n1 + n2 ]
            |
            v
      [ print sum ]
            |
            v
        ( Stop )
```
